1. Welcome (minutes? ; attendance sheet ; brief self-introduction)
2. Additions to the agenda
3. Report of group activities (Peter Klien)
Website
 - a. Change of platform (from Plone to to Drupal)
 - b. Minutes, documents, overview of models, overview of institutions
 - c. Questionnaire
4. Measurement of individual license usage in clustered Aleph instances
(Wolfgang Hamedinger, The Austrian Library Network and Service Ltd, Austria)
5. Discussion
6. Planning for the next generation ILS (URM): consortia input?
(together with Ex Libris representative)

What is different within the consortia environment as relates to :

- a. What are the major areas of concern with library technology you have today?
 - b. What kinds of things do you think are critical to your future success?
(we try to focus here on the *new* things that libraries will need to do.)
 - c. What kinds of things do you think are becoming less important to your library? Are there things that you are not likely to do or need in the future?
7. Business Discussion
 - a. Future of the group
 - b. Integration of Voyager consortia?
 - c. New SIWG on consortia (cross-product)?
 - d. Volunteers / Nominations
 8. Activities for the next year
