## Primo Implementation – CCLA

What distinguishes CCLA's  
implementation of PRIMO?

*CCLA is a “Shared System” (Consortium)*

---

College Center for Library Automation

## Primo Implementation – CCLA

- CCLA Primo:
  - 29 Views
  - 152 Scope values
  - 540 Search scopes

## Primo Implementation – CCLA

- **Obstacles**

- Views with multiple scope values
- Availability not relevant to institution/search scope (FRBR)
- Cumbersome back office in consortia environment

# Primo Implementation – CCLA

- **Enhancements**
  - FRBR / Availability improvements
    - Version 1.7 through version 2.1 and beyond
  - Availability calculated by location (not institution)
    - Version 2.1
  - Multiple location call numbers on brief results screen
    - Version 2.1+

## Primo Implementation – CCLA

- **Future Plans**

- Google e-Books (U of Michigan records)
- User Admin Module
- More to come...

# Primo Implementation – CCLA
