 Special Interest Working Groups

IGeLU Statute

- **Art. VI. Working Groups:**
- The primary work of IGeLU shall be organized in Product and Special Interest Working Groups.
- There shall initially be Product Working Groups for ALEPH, MetaLib and SFX.
- Members can organize themselves in Product Working Groups for any other Ex Libris product.
- Members can organize themselves in Special Interest Working Groups for any field of interest.

Main Tasks of the PWGs

- Organize the content of the Conferences
- Coordinate and carry out the development cooperation with Ex Libris & ELUNA
- Maintain product communication between Product Working Groups and with the National User Groups
- Raise issues of importance with the SC
- PWGs shall organize themselves

Draft structure of the ALEPH PWG

PWG Coordinators

Responsibilities:

- General organization of the Working Group
- Communication with the SC, other PWGs and National User Groups
- Coordination of the development cooperation with Ex Libris
- Reporting to the Assembly of Members

Next Steps

- Establishment of the working bodies of the PWGs
- Defining the development cooperation within the IGeLU enhancement guidelines
- Agreement on web presentation and communication platform for the PWG
- Assigning the tasks to members of the working body of the PWG …

… and start working ;-)

Thank you!
