

Putting more 'M' in MANGO

M[ore] Services in Florida's Discovery Service

IGeLU – Haifa – 2011
Michele Newberry
Florida Center for Library Automation

MaNGO

- Mango is FCLA created application that uses the Solr/Lucene search engine and repository
- Begun in October 2007, live in August 2008, major overhaul in August 2010
- “Megaindex and Next-Gen OPAC”
- 11.6M records
 - 20M Aleph records deduped to 9M
 - 1.4M CRL
 - 0.25M OSTI
 - 77K Digital Library
 - And now...200M+ articles
- Union & Local Views
- Many user features

Mango Engine Overhaul

- Switched search engine from Endeca to Solr

- Reduced operational costs
- Added more records
- Minimal loss of functionality

while the car kept rolling!

- Los Links!

- Different URL parameters required changing all saved searches on webpages, RSS feeds, bookmarks, CRM pages, everywhere

See <http://www.youtube.com/watch?v=C94DSJxNrYo> for an explanation of Los Links!

Mango Requirements & Features

- OPAC benchmark
 - Mango should have the basic features of the OPAC, including browse
 - Patron-centric
 - Retain look and feel for each SUL
- Primo (later with PCI) benchmark
 - Full-featured
 - **Article Search**
 - Move seamlessly between catalog and article search
 - Blend results using each service's relevancy ranking

Mango Requirements & Features

- Integration
 - Real-time availability of holdings
 - ILS Holds, Renewals, Booking, In Process requests
 - UBorrow and ILL
 - SFX and 360Search Link Resolvers
 - Advanced Booking
 - Course Reserves/Reading

Mango Requirements & Features

- Continuous data loads and updates
- Spell correction and “did you mean”
- Support for search and display of diacritics
- Advanced Boolean search and sequential Browse
- Text messaging call numbers
- Location Maps for call numbers

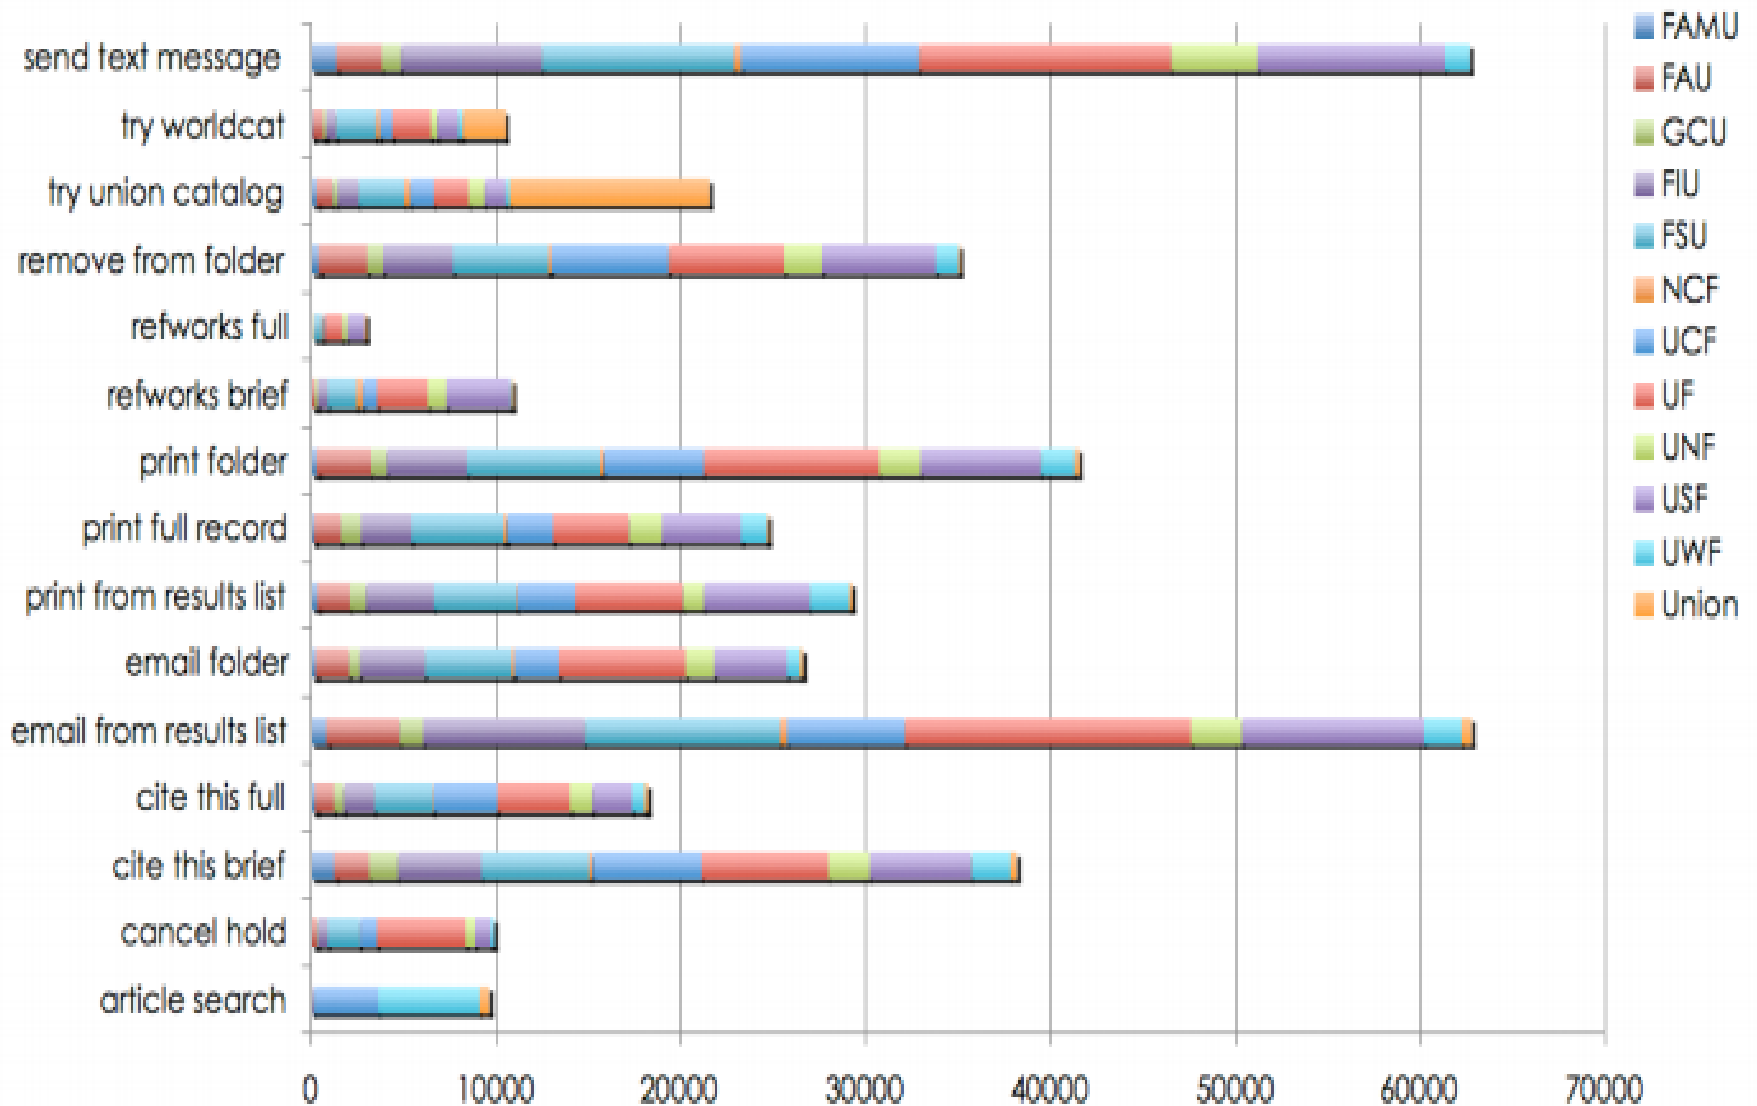

Mango Requirements & Features

- Citation and reference management services
- Book cover images and links to Google Books
- Links to Hathi Trust eBooks
- JABbr journal abbreviation search*
- RSS feeds
- Study Room Reservation Service

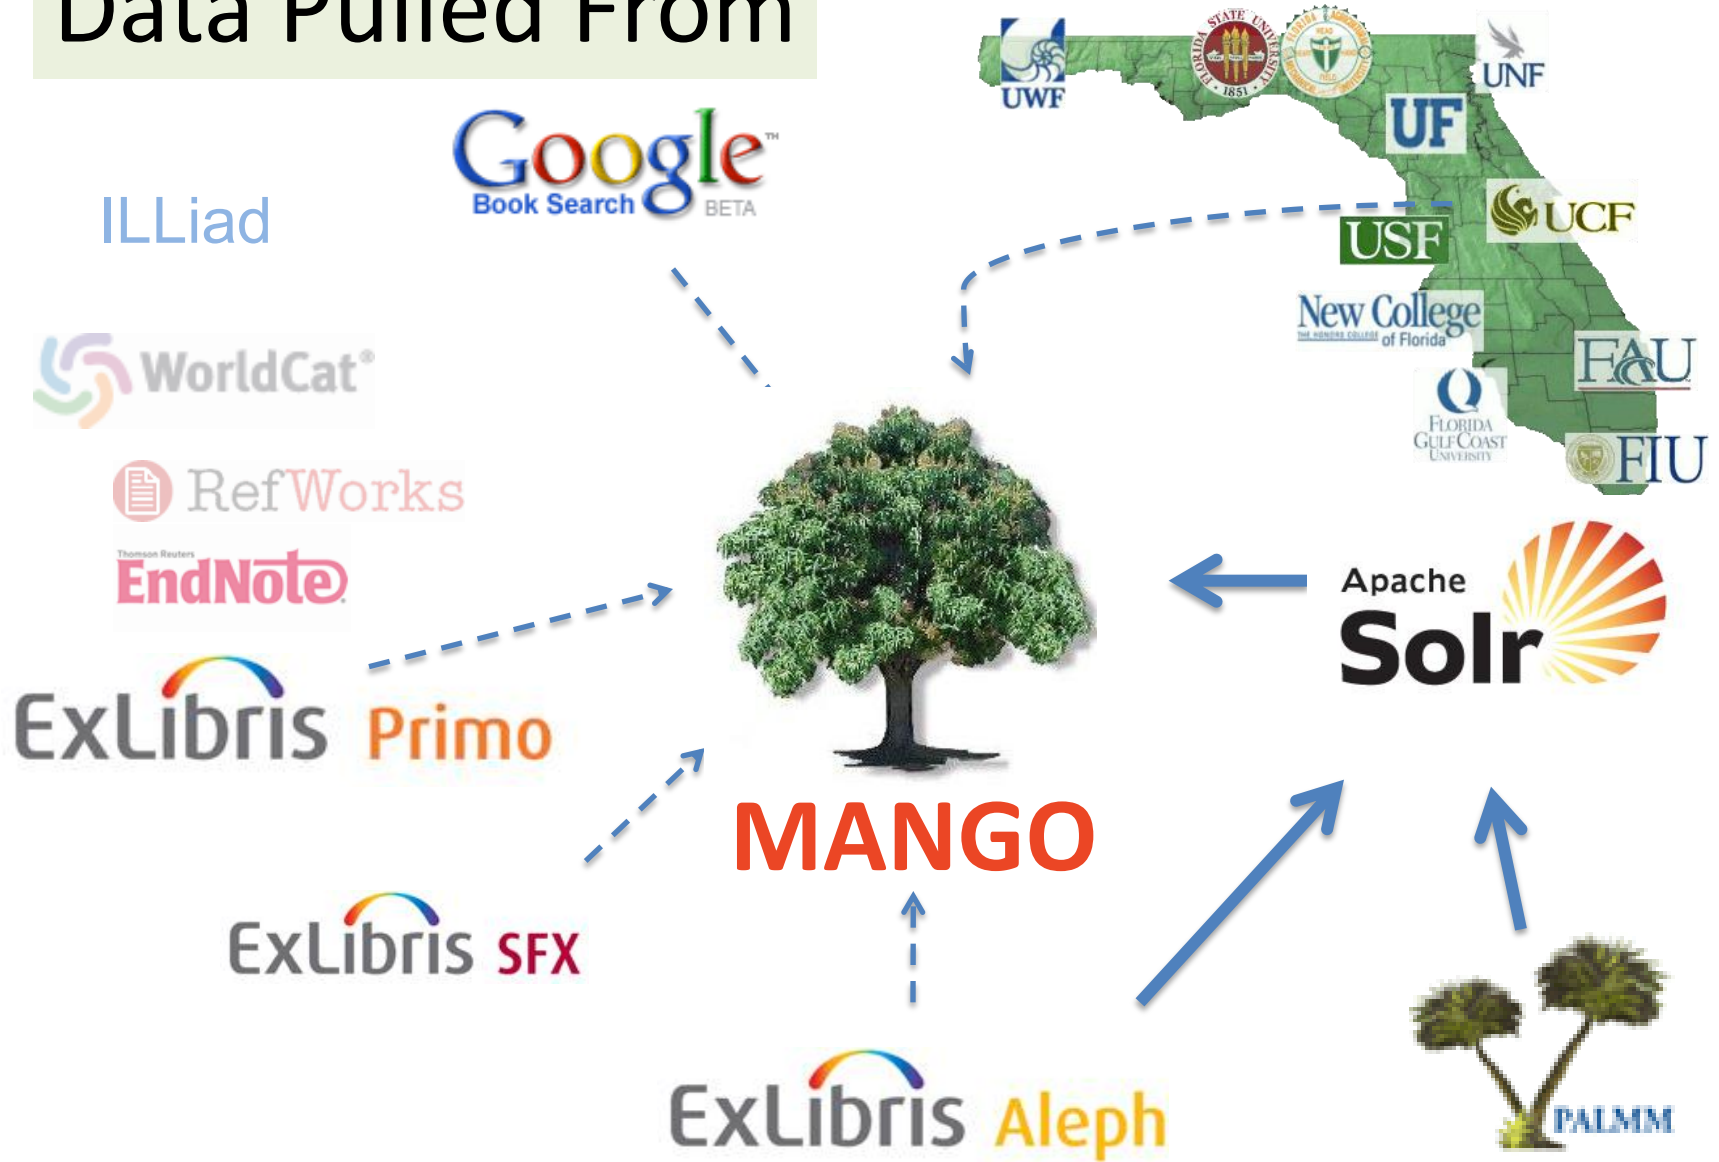

* Developed at Cornell by Keith Jenkins
See <http://jabbr.fcla.edu/> for more info

Unmediated Borrowing
aka
UBorrow

Explicit Goals of the U Borrow Service

Develop a user-centered *service* which

- Enables users to easily *discover* materials available throughout the SULs
- Lets users *request* materials from any participating SUL with a single request in the Mango Union catalog
- Increases *access* to and use of the SULs' collections
- *Delivers* more quickly than standard ILL
- *Saves* staff time and reduces ILL costs

Implicit Goals of the UBorrow Service

Develop a user-centered service which

- Requires staff to “touch” requests as little as possible
- Can be handled by staff other than ILL
- Is visible
- Is extensible
- Leverages current technology
- Saves money – and doesn’t require additional resources

UBorrow Building Blocks

1. Mango

- FCLA's discovery interface
- Takes advantage of real-time availability info

2. Aleph

- 11 separate instances, managed by FCLA
- Invoked Aleph ILL for the first time

3. ILLiad

- 11 separate instances, configured independently
- Most hosted by OCLC

UBorrow Highlights

Offers most appropriate option

What do patrons think?

This is the most wonderful service ever!

This is SOOOO great!

I like this feature, let's keep it

Hey this is nice and easy.

hell yeah!

This system is awesome! Thank you for implementing and creating easier access to ILL materials!

I love this system! Nice work!

Thank you! I appreciate this service and the help of the library staff at the different Florida libraries.

Other libraries list this as online ebook, so I hope this is a real book.

Well, that was easy!

UBorrow Service is useful especially for doctoral students!

IMPRESSED WITH HOW SIMPLE AND EASY TO USE THE INTERFACE IS. HOPEFULLY THE REST OF THE PROCESS WILL BE AS SMOOTH.

Many thanks for this service. Blessings!

Great service thanks

Works Great!

this system is quick and easy!

**THANK YOU!
YOU GUYS
ROCK!**

This is my first time using this systems. How many days it will take the book to arrive? Thanks.

What an EXCELLENT concept! I will be using this throughout the year.

The UBORROW system is a great improvement for intra-SUL searches and borrowing. Great tool!
