

The use of Limo at K.U.Leuven

Better statistics for Primo

IGELU 2011

16:15 - 17:15. Arts 209

Monday, September 12, 2011

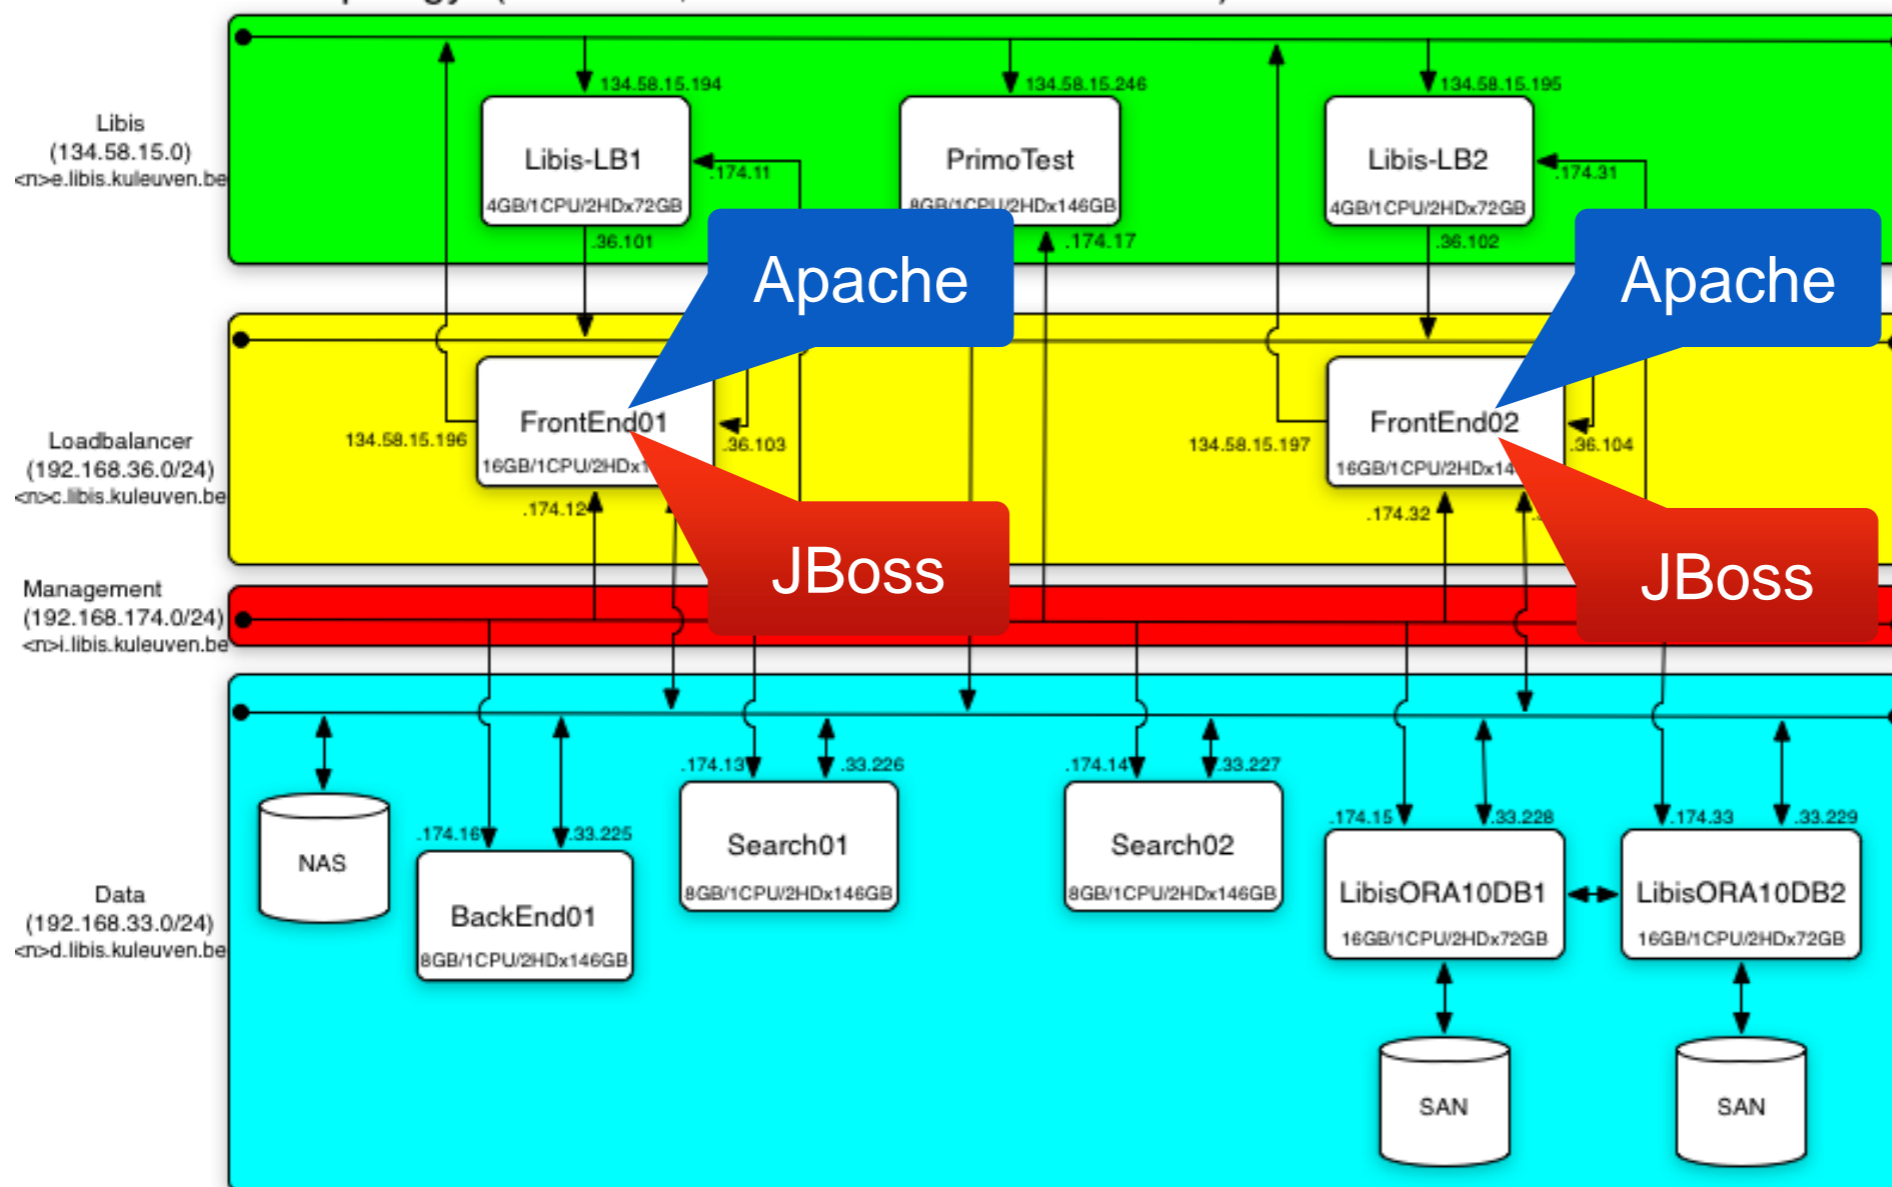

Veerle Kerstens, LIBIS/K.U.Leuven
Mehmet Celik, LIBIS/K.U.Leuven

It's not broken it's ...

- Scares documentation
 - Unclear what is included or how it is included
 - We think it is aggregated data
- Session data is not stored
- You can not use it to trigger events
- Not real-time

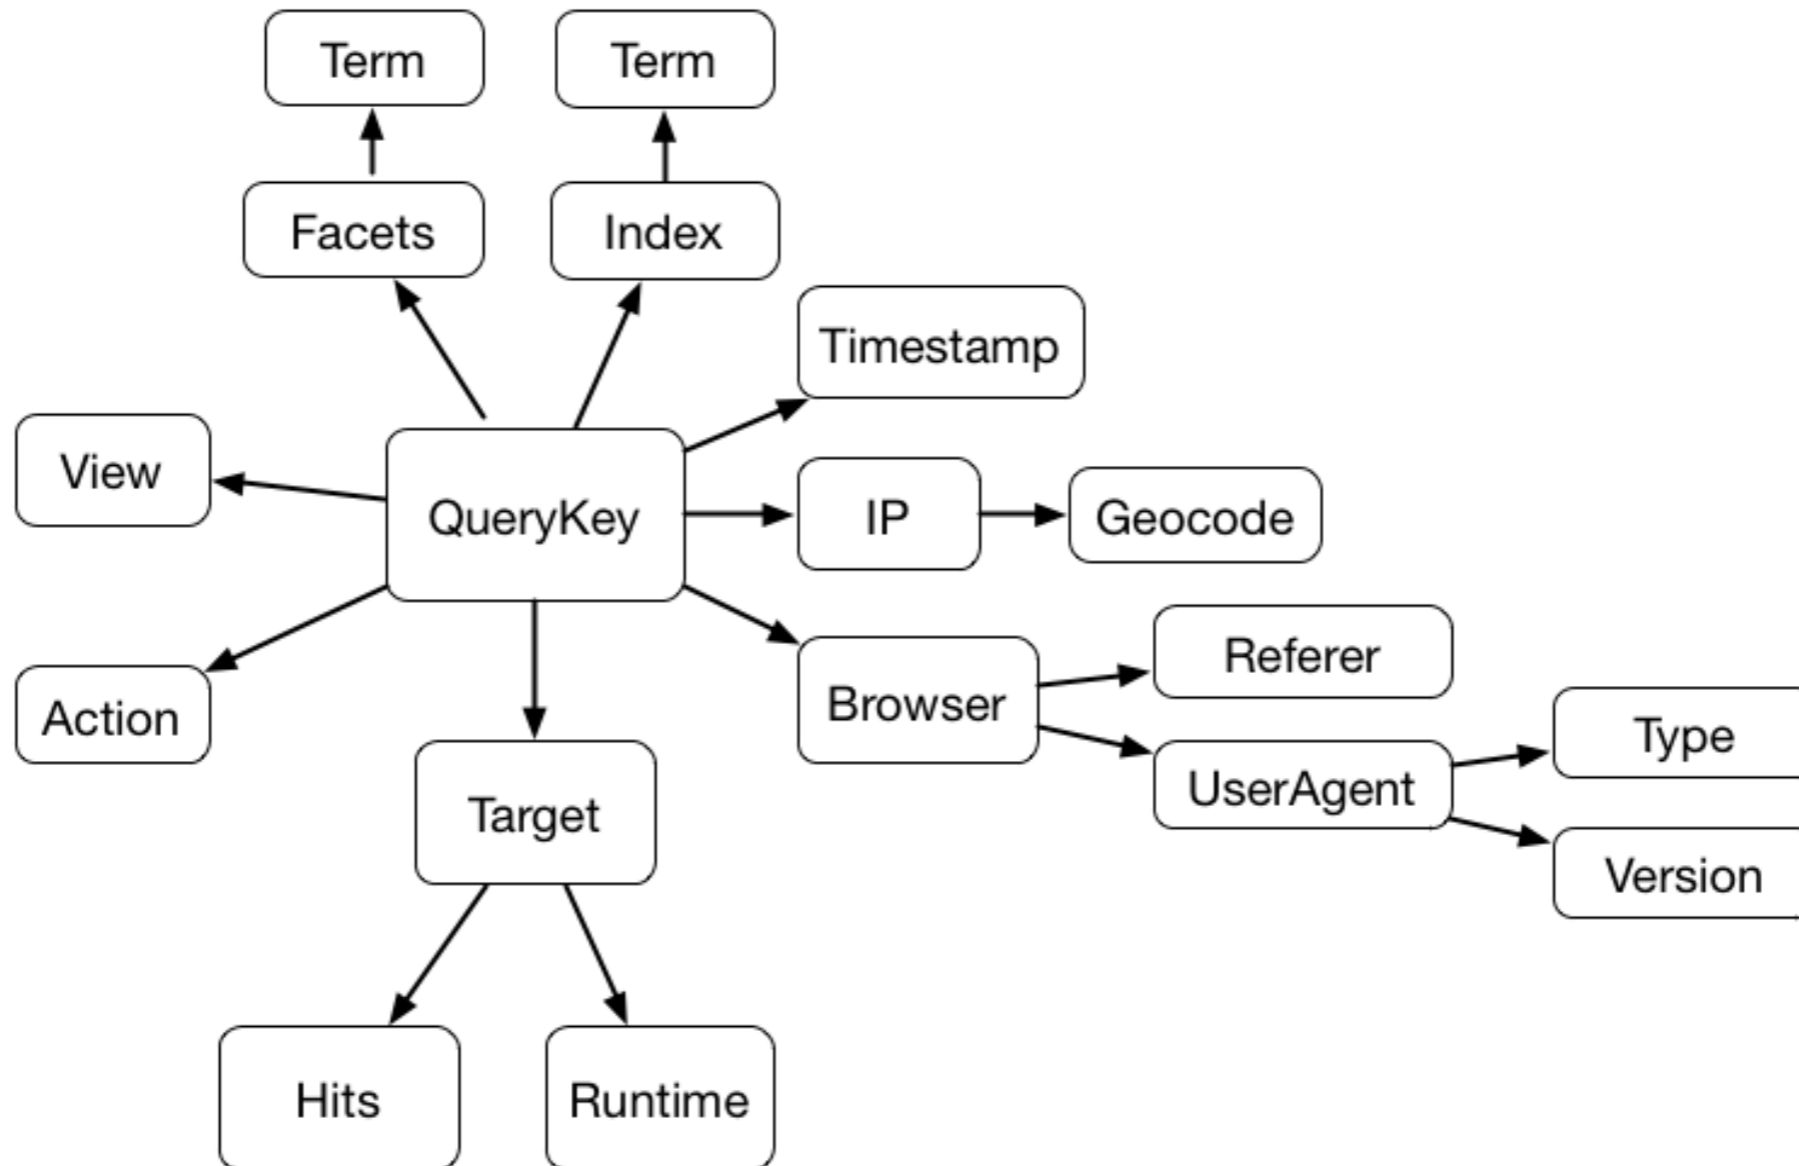

What to use for statistics

LIMO network topology (limo.libis.be / primo.libis.kuleuven.be / 134.58.15.244)

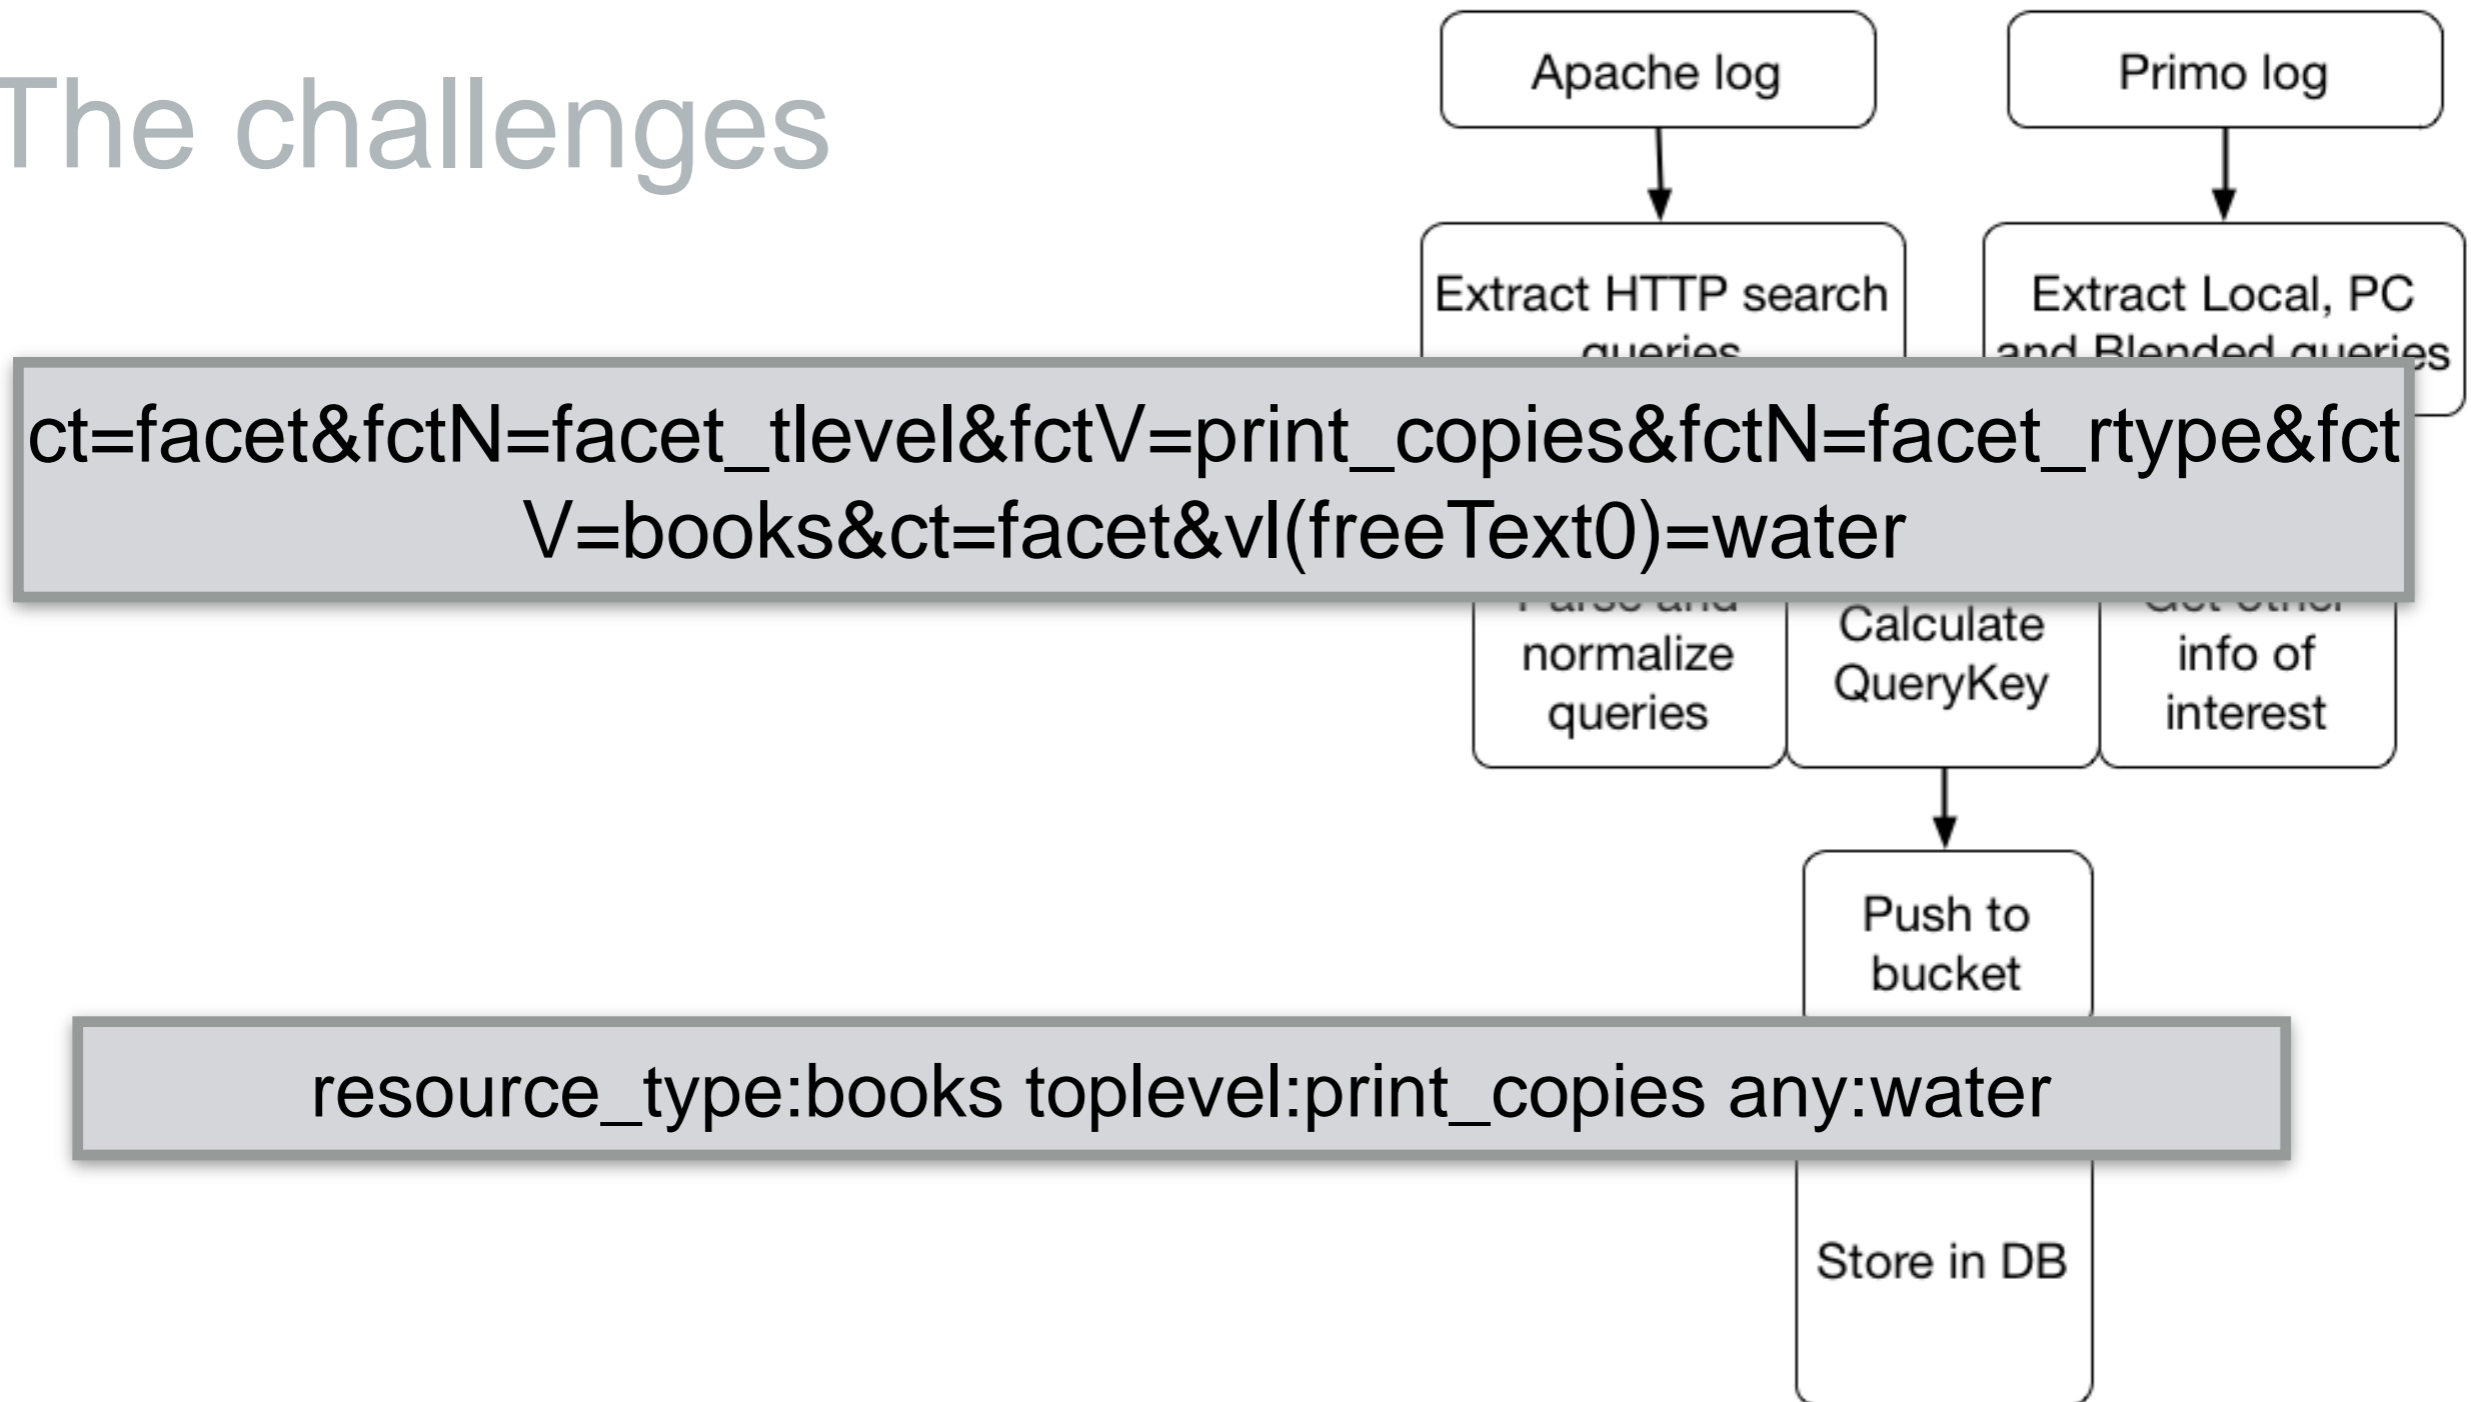

All you need is in the log files

- 2 sources on FrontEnd to collect data
 - Apache
 - Origin (ip)
 - Browser type (bots?)
 - Query
 - Request timing
 - JBoss (Primo log file)
