Playing Nicely Together
EAD, Primo, Aleph & Rosetta

IGeLU

September 2011

Shelley Neville

Church History Library

- The Church History Library includes the Library, Archives, and a Museum
- We use Aleph for cataloging and circulation
- Primo is used for discovery
- Rosetta is used for preservation and is in implementation for digital asset management

- **Access**
  - The public can access some historical materials in a large, open library area, while other materials will be located in archival storage rooms and can be brought to a reading room upon request by a patron.

Our collection contains approximately:

- 270,000 books, pamphlets, magazines, and newspapers
- 240,000 collections of original, unpublished records (journals, diaries, correspondence, minutes, etc.)
- 4 million Patriarchal blessings for Church members (digital and hard copy)
- 13,000 photograph collections
- 23,000 audiovisual items

What are we trying to do?

- Integrate 4 separate products to create a rich discovery and delivery experience for Church History Catalog users
  - EAD Creation tool
  - Primo
  - Rosetta
  - Aleph

EAD Module – Phase 1

- Encoded Archival Description (XML)
- Needed an easier interface to creating finding aids
  - Large volunteer force
- Physical and Virtual nesting
- Typically only describe to the box level
- In production for creation of EAD

Scope and Content of the Collection
Audio and video recordings of the Christmas programs performed by the Choir, including their annual Christmas programs and other special Christmas performances.
Many performances include the Orchestra at Temple Square, which was formed in 1999. On many recordings, the Choir is joined by guest artists such as Renee Fleming, Bryn Terfel, Sandi Patty, Walter Cronkite, Frederica von Stade, and Claire Bloom. Concerts prior to 2000 took place in the Tabernacle, afterwards, performances were moved to the Conference Center.

Church of Jesus Christ of Latter-day Saints Archives

Integration with Aleph – Phase 4

- Cataloging
  - Collection record in Aleph
  - Who owns the master
    - EAD Tool
    - Aleph
  - Synching
  - Still working out how to manage authority control in EAD creation tool

- Circulation
  - How to request a document if not digitized?
    - What is the link between the series or sub-series level in EAD and the item record in Aleph
  - Pre-proof of concept

Unexpected Choices

- Use EAD tool as MARC Editor for staff
  - Volunteers
  - International users describing art, artifacts, and collections about the history of the Church in their areas
- Simple label changes to avoid jargon
- Authority control is still a huge issue
  - Complicated for non-librarians
  - Looking at a simple list of terms

- Records are then ingested into Aleph from the EAD tool
- Records need to be reviewed
  - Perhaps some authority work completed

Thank You

Questions
