Xerxes Roadmap

What is Xerxes?

- Metalib X-Server application
- Co-developed by California State University and Johns Hopkins University (Baltimore)
- 26 institutions live, many more “in development”
 - Most in North America
 - Europe, Australia, and Japan

Where are we now?

- Version 1.5
 - My Saved Databases
 - Improved Internationalization (i18n)
 - Better linking to catalogs

Where are we going?

- Version 1.6
 - bX integration
 - Librarian and guide feature
- Version 1.7
 - Saved searches
 - Saved records from outside systems
 - Expanded citation formatting

Where are we going?

- Xerxes as an interface to *other* systems
 - Worldcat
 - Primo?
 - Summon?
 - Ebsco Discovery Service?
- Modules, “search framework”
