### DigiTool for Course Support at Notre Dame

Pascal Calarco,
University of Notre Dame
IGeLU 2007
Brno, Czech Republic
September 3, 2007

### Some Brief History . . .

- Digitool 1.0 purchased in 2001
- Small pilot with 2.0 to compare DSpace and Digitool in 2003
- Skipped 2.4 upgrade to wait for 3.0 release
- Digitool now a component project of Institutional Digital Repository project at Notre Dame
- Beginning with image collections for course reserve

### Institutional Digital Repository (IDR)

- Library pilot project 2005-2006 to explore policy and technology issues with institutional repositories
- Cross-divisional; 35 staff + outside library
- Content components:
  - Working papers/preprints
  - Excellent undergraduate research
  - Art Image Library collection
  - Electronic Theses & Dissertations

#### OAI in Digitool: Iterations

- Initially developed by Ex Libris in version 3.0
- SP13 introduced Repository Replication via DLESE OAI
- SP15 introduced new in-house OAI provider, stores harvested data in DB table instead

# Publishing Manifestations to OAI

- Needed ability to distinguish between ARCHIVE, VIEW, VIEW\_MAIN manifestations with URLs to each
- Working properly finally with SP15:

#### **Art Image Library**

- □ ~230,000 analog slides
- Dept. of Art, Art History & Design, College of Arts & Letters
- Primary use: course support & research
- Curator, Assistant Curator, undergraduate art history students

BOND- CARD HISTORY OF THE TARK

1486-70 Founded by
Prince Etienne le Grande,
143722,

A1SRUM MOLDAVIE, Mostry of Putna Ext. Aerial View of Landscape

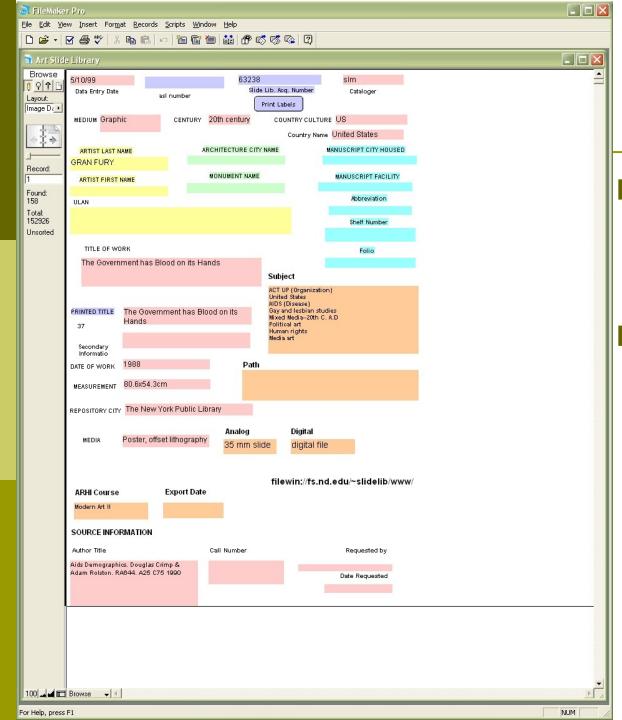

1466-70 Founded by Prince Etienne le Grande, 143722,

### Art Image Library: FileMaker Pro

- 155,000 records of varied quality and consistency; 230,000 slides in collection
- Started out in 1985 as HyperCard application
- Accession number unique identifier; some images predate database (ASL-xxxx identifiers)
- Approximately 16k images digitized; 5k-7k newly digitized per year

- Filemaker Pro input/find interface
- Manuscripts use slightly different fields

#### Filemaker Pro --> DigiTool

- Enhance, correct Filemaker Pro data one course at a time (3-4 min./record)
- Enrich with ArtStor and other descriptive metadata
- Export CSV from Filemaker Pro
- Process CSV file with XSL to DCXML
- Organize TIFF images, ingest XML in clusters of 500 records each
- Ingest, task, apply access rights to incoming images
- Create, update collections

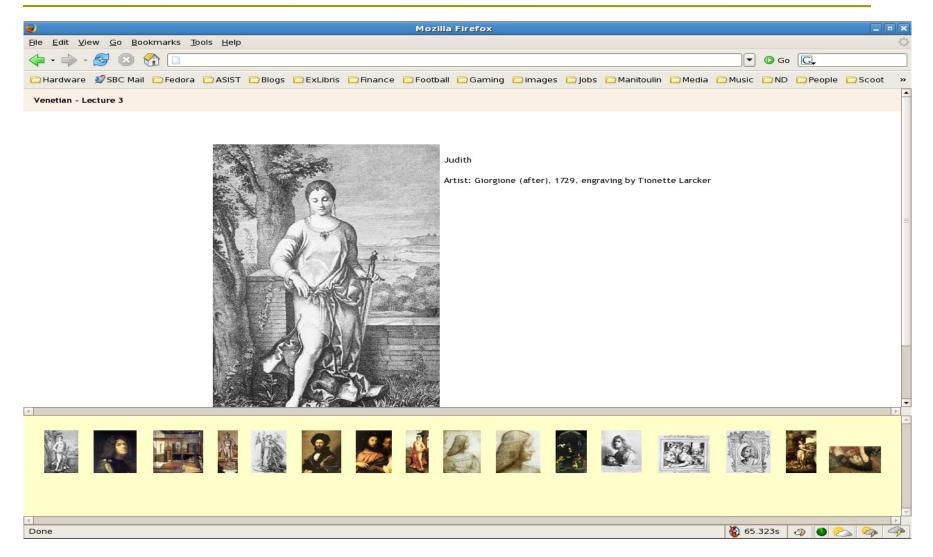

#### DC XML transformation

```
<record xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xmlns:dc="http://purl.org/dc/elements/1.1"</pre>
xmlns:dcterms="http://purl.org/dc/terms">
  <dc:identifier>11240.tif</dc:identifier>
  <dc:identifier>11240.jpg</dc:identifier>
  <dc:title>Strozzi Altarpiece</dc:title>
  <dc:creator>Gentile Da Fabriano</dc:creator>
  <dcterms:bibliographicCitation>Abbeville Press, The Art of Florence</dcterms:bibliographicCitation>
  <dc:source>Florence, Uffizi</dc:source>
  <dcterms:temporal>15</dcterms:temporal>
  <dcterms:created>1423</dcterms:created>
  <dcterms:spatial>Italy</dcterms:spatial>
  <dc:format>Painting</dc:format>
  <dc:format>tempera on panel</dc:format>
  <dc:format>300x282</dc:format>
  <dcterms:mediator>Venetian</dcterms:mediator>
  <dc:contibutor>sms</dc:contibutor>
  <dc:source>http://alephprod.library.nd.edu:8991/F/?func=find-
b&find code=020&request=0896594025</dc:source>
 </record>
```

### Art Image collections: Course Support

- Collections primarily used for teaching in Art, Art History & Design dept.
- Desire and demand to expand to other academic departments, eg. Theology, American Studies, etc.
- Copyright provenance varied, so need to limit to class enrolment for most of collection
- Faculty currently mostly use Powerpoint for image presentation

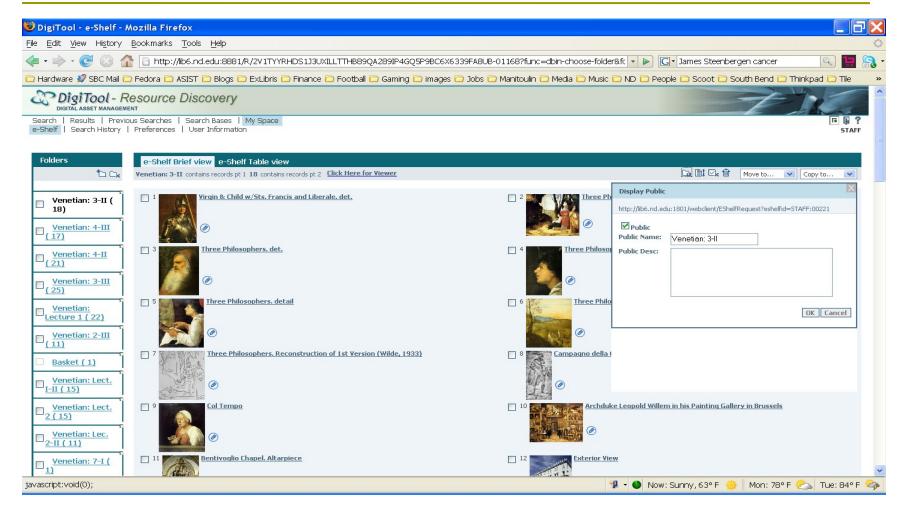

#### Web Gallery for Image Study

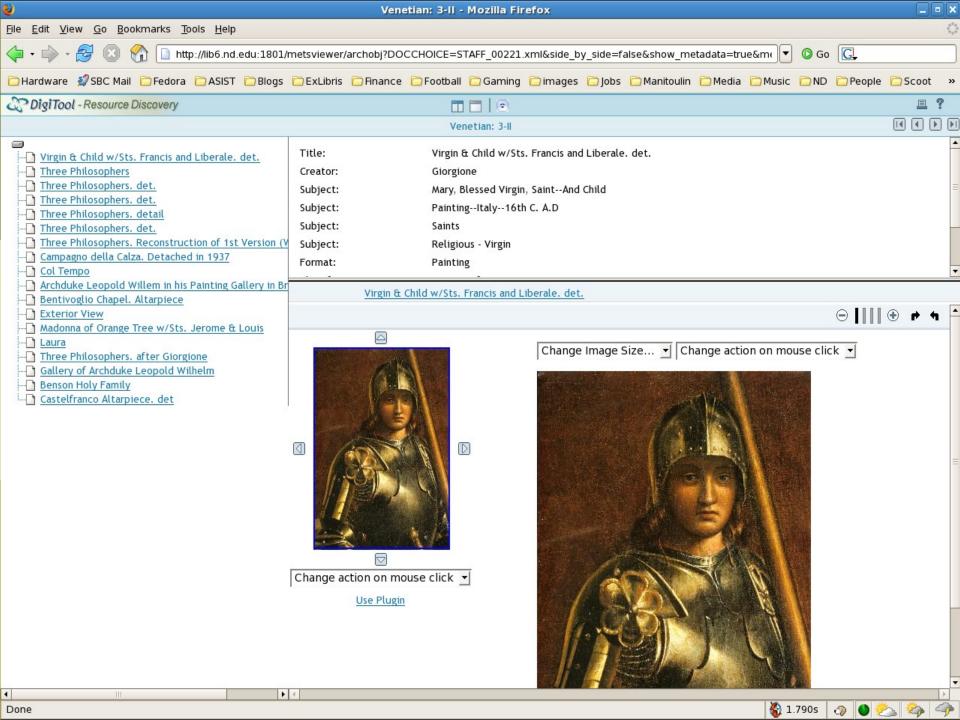

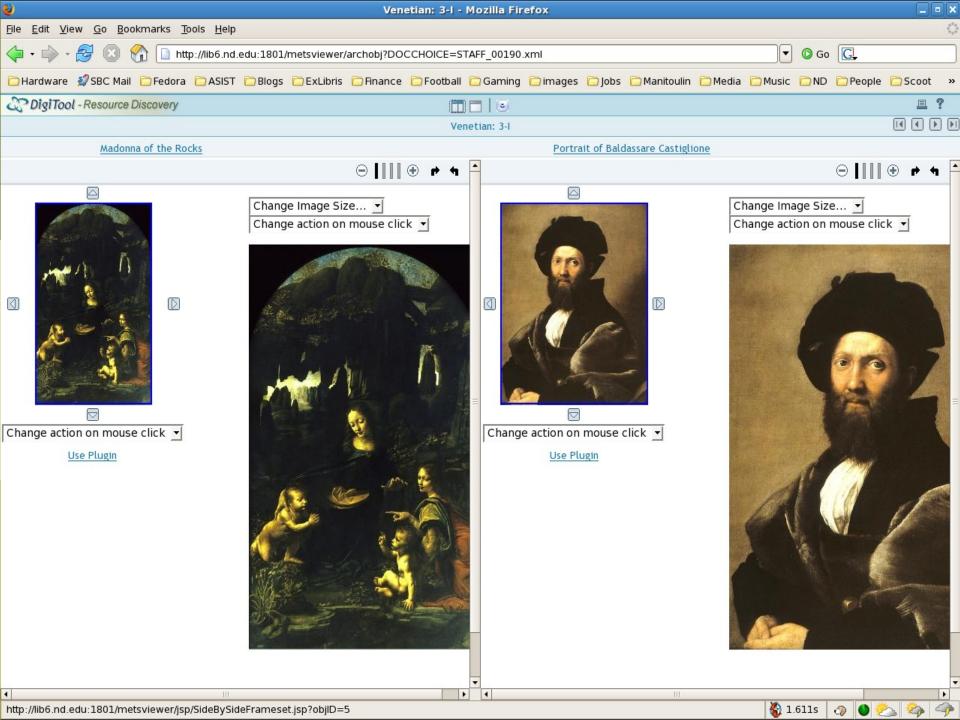

### Powerpoint for Teaching

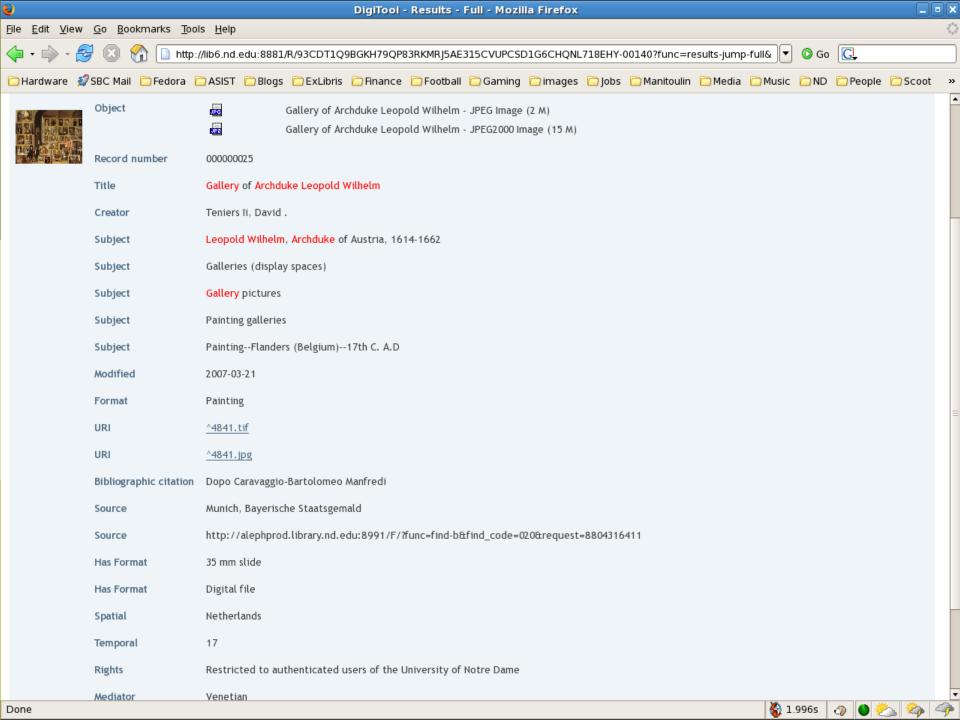

Leonardo da Vinci, Madonna of the Rocks, 1483, Raphael, Baldassare Castiglione, c. 1515, Paris Louvre Paris, Louvre

# E-Shelf Public Folder Publishing

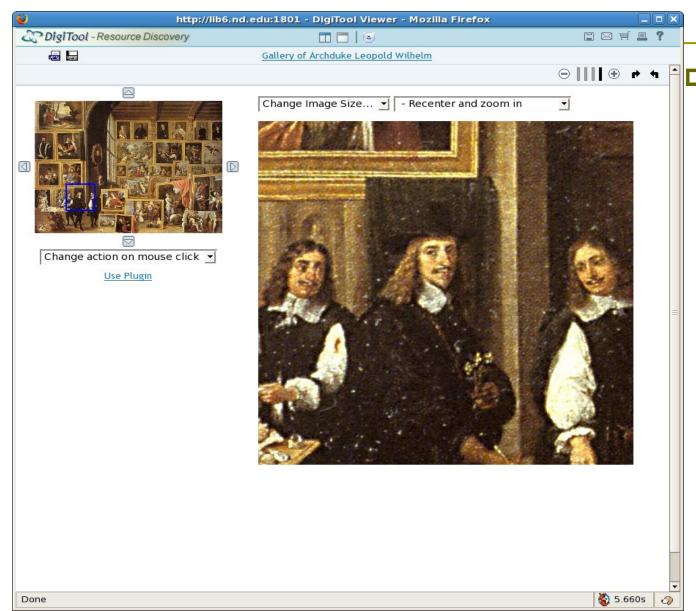

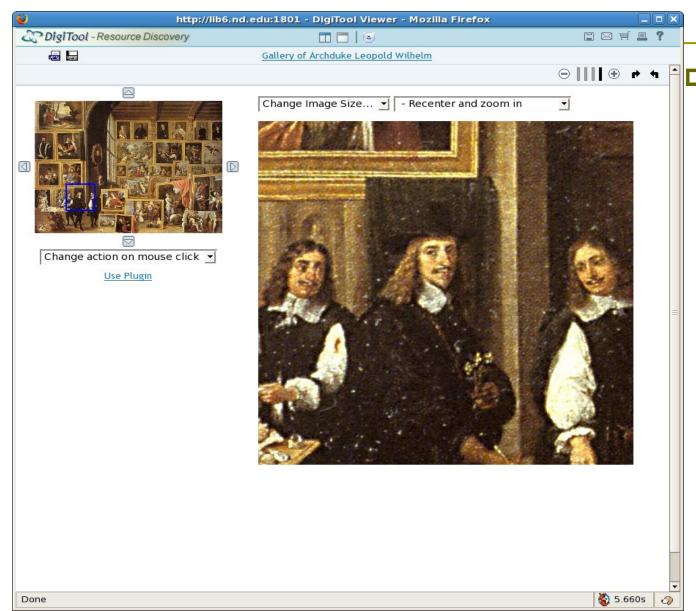

### JPEG2000 Display

Changed
JPEG2000
script to
increase
number of
layers
available

### JPEG2000 Display

Changed
JPEG2000
script to
increase
number of
layers
available

#### **Authentication Issues**

- PDS cannot handle two types of authentication methods (yet); in development
- Denied bases for restricting access: item level or defined base level
- Denied bases still show total collection size
- Notre Dame LDAP does not provide groups based on class
- Use internal authentication based on per class enrollment for now

### Decision Points: Digitool Image Collections

- Descriptive standard: VRA, DC, something else?
- IP decisioning; how far to lock down?
- Authentication methods
- Resolution standards: for ARCHIVE and VIEW manifestations
- Preservation metadata: NISO Image, JHOVE, PREMIS
- Resource Discovery customization

#### **Architecture Lantern Slides**

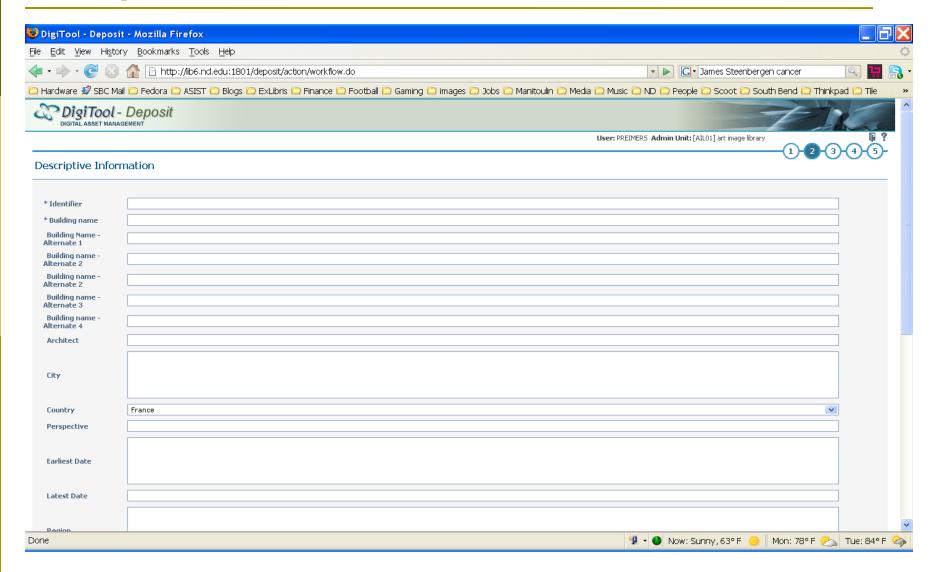

- ~3000 glass lantern slides in collection
- Publisher: Massiot & Cie, Coubervoie, Seine, Paris, France
- Went out of business around WW I
- Cleaning and scanning; loading into Flickr & Digitool
- Minimal metadata

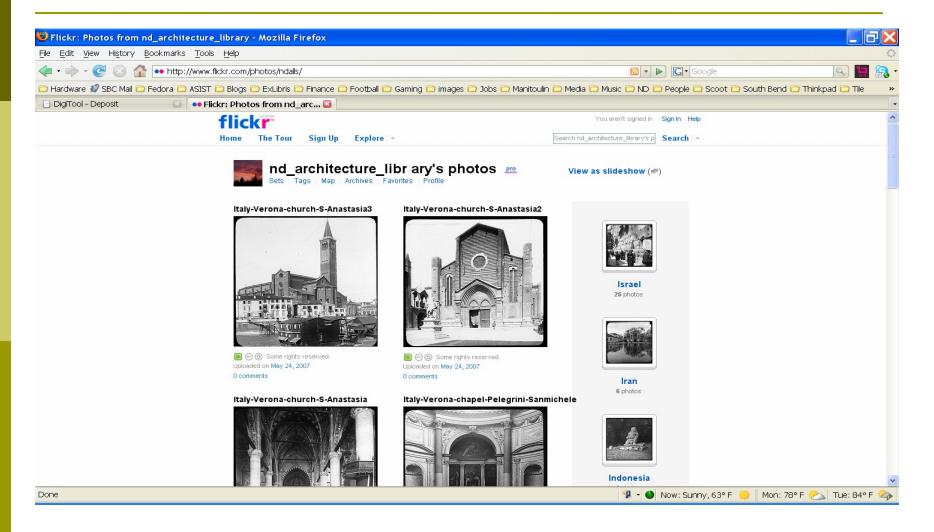

# Dual approaches: Digitool & Flickr

- Very little metadata exists, so why not invite Flickr community to contribute?
- Use Flickr to raise collection visibility
- Use Digitool as archival repository
- Invite faculty & students in School of Architecture to contribute, as well as others
- Creative Commons 2.0 Share-A-Like license

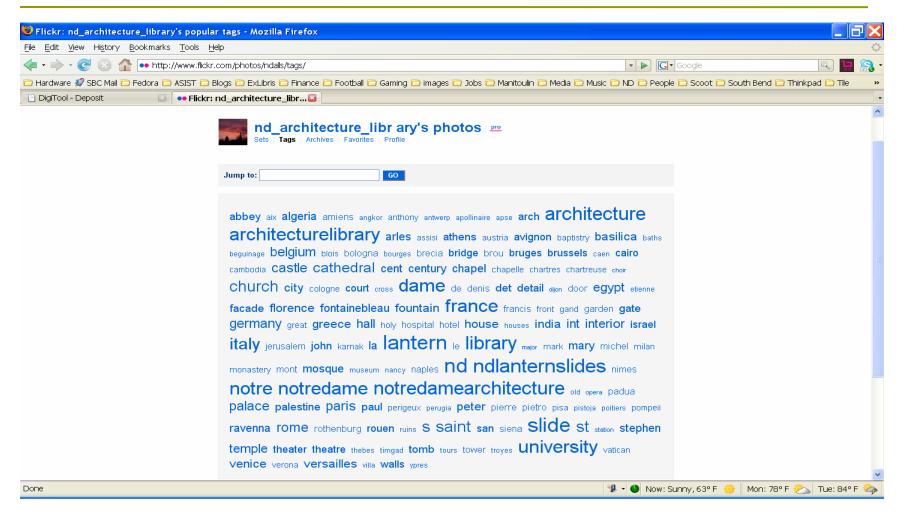

# Architecture Lantern Slides: Deposit module

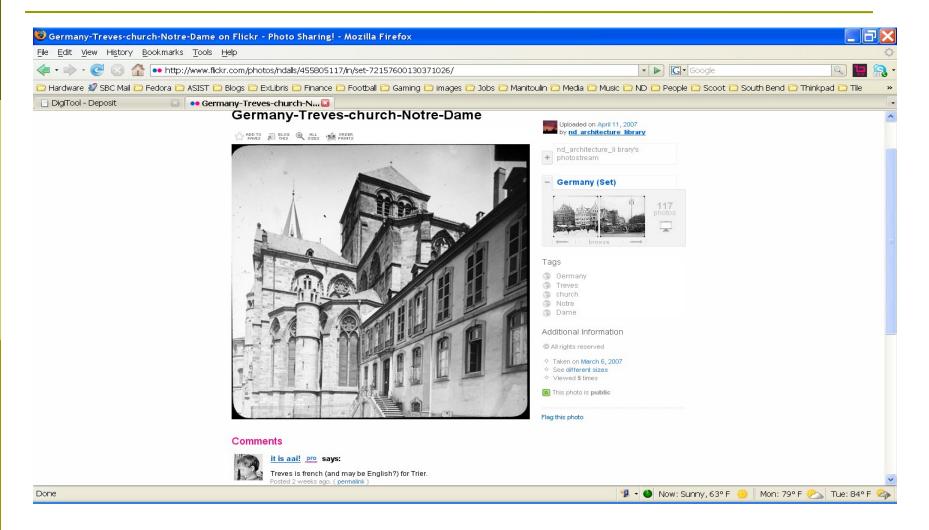

# Architecture Lantern Slides: Flickr

### Flickr: Tag Cloud

# Flickr: Full view, with comments

#### Next steps through 2008

- Complete 'Late Antique and Early Christian Art' and 'Modern Art II' for Fall 2008
- Complete Deposit templates, RD customization
- Follow evolving group access rights; Create class accounts for Fall '08 classes
- Catch up to the digitized backlog awaiting ingest
- Move on to textual collections: EAD, TEI
- demo: http://lib6.nd.edu:1801/

#### Thanks!
