Introduction

- My name is Augusto Ribeiro and I am the Documentation and Information Management Unit Coordinator at University of Porto - Portugal.
- Portugal is the western country in Europe, including additional land in Atlantic Ocean - Madeira and Azores Islands (tiny in Google Maps).
- My relation with library systems started in 1996 at University of Porto, as a computer engineer, but soon I got involved with library subjects. Today I am an enthusiast of IT services for libraries and archives.
- My main interest areas are:
  - Lybrary Systems;
  - Search and Discovery Systems
  - Open Access Repositories
  - Open Science
  - Linked Data
  - Current Research Information Systems (CRIS)
  - Systems Interoperability
