

Name: Margaret Briand Wolfe

Position Title: Systems Librarian

Institution: Boston College

Email address: briandwo@bc.edu

Additional Information:

I have been working for the Boston College Libraries for 13 years. I started as a Systems Librarian working with Aleph. In 2009 BC became development partners with Ex Libris on their next generation product, later named Alma. I was an integral member of the development team and BC was the first institution to go live with Alma in July 2012. Most of my working experience is with Alma and Alma Analytics. I am an active contributor to both the Alma and Analytics ListSers and a regular presenter at the ELUNA annual conference and ELUNA's Developer Days. It was also my great pleasure to be able to attend IGeLU's conference last summer in Singapore and to present there as well.

Ex Libris products that BC licenses:

- Alma
- Primo

A statement outlining your interest in and qualifications for service on the Steering Committee.

I am very interested in being a part of the IGeLU Steering Committee. I have been very involved with ELUNA and IGeLU for the past 5 years as I was co-chair and then chair of the joint IGeLU/ELUNA Analytics Working Group. During that time I very much enjoyed meeting and working with representatives from both steering committees and working groups and working with Ex Libris staff. I recently stepped down as the Analytics Working Group chair but continue to support the group in an advisory role and as a member of the group's working body. I would very much like to continue to contribute to the Ex Libris products community by being a member of the IGeLU Steering Committee.

I feel I would be an asset to the steering committee as I am organized, a hard worker and an excellent communicator. Because of the years I spent working with Ex Libris as a development partner for Alma and then as chair of the Analytics working group, I have developed an excellent working relationship with Ex Libris staff. I would very much like to continue developing all of these relationships and contributing to the community in a leadership role on the IGeLU Steering Committee.

I have support from both my supervisor, Emily Singley, and the BC Libraries senior staff, to pursue this new role.
