

CANDIDATURE FOR IGELU STEERING COMMITTEE

Petra Svanborg
Umeå University Library
Sweden

PROFESSIONAL BACKGROUND

- Master's Degree in Library and Information Science 2004
- As the “black sheep” in a family of Systems Analysts – it was inevitable that I'd end up a Systems Librarian!
- Worked as Systems Librarian and/or IT Coordinator in various libraries since 2007
- Project Manager for Alma implementation in 2018
- Current position: Administrative Director of Library Systems
- Vice Chair of ELUGswe since 2019

MORE ABOUT ME

- I have worked in almost every kind of library possible – academic, public, medical, school, government, law...
- Broad experience in cataloguing, circulation and customer service
- Leadership training
- Examples of projects I have lead:
 - Setting up a Sami court order database
 - Cataloguing of early printed books
 - 3D printing in a Medical Library context

The background image shows the Lindellhallen building at Umeå University, a modern structure with a large glass facade and a prominent overhanging roof. The name 'LINDELLHALLEN' is visible on the building's facade. In the foreground, there is a grassy area with several bicycles parked and a few people sitting on the grass. A body of water is visible in the lower part of the image, reflecting the building and the sky. The overall scene is captured in a cool, blue-toned light, suggesting a clear day.

UMEÅ UNIVERSITY

- The leading University in northern Sweden
- Founded in 1965
- > 36,000 students and > 4,000 staff
- Focus research areas are i.e. Artificial Intelligence and The Arctic
- Nobel Prize laureate Emmanuelle Charpentier made her groundbreaking discoveries while working in Umeå University in 2012

UMEÅ UNIVERSITY LIBRARY

- > 100 staff members
- Ex Libris customers since 1999
- Systems currently in use:
 - Alma
 - Primo VE
- Actively evaluating other Ex Libris products
- Agile team of seven System Librarians

WHY VOTE FOR ME?

- I am passionate about organisational development and delivering the best possible library experience to end users – Alma and Primo are cornerstones in that experience.
- Configurability is key to make one system fit all. The way to get there is through international collaboration and communication.
- I would bring years of built up experience in the library systems field to the Steering Committee and work to further enhance community collaboration opportunities, as well as communications with Ex Libris.

**THANK YOU FOR
CONSIDERING MY CANDIDACY!**
