- Investigation of alternative enhancement gathering schemes
- Closure of ElCommons Move Project
- Started a review of legacy listserv messages

10.5 Enhancement Cycle

- 9 Enhancements submitted for consideration to Ex Libris
 - Allow capture/copy of BIBID, AUTHID, MFHDID in cataloging module
 - Enable authority LAN sorting in cataloging client using data from SysAdmin or LAN index
 - Increase Bank Account field character limit to 50
 - Add additional computed Balance amounts to take Pending Commitments and Pending Expenditures into account
 - Create separate “Show Index” check boxes for staff and OPAC modules
 - Enable “Show Index” check box on heading displays
 - Add support for scripts found on the Supplementary Multilingual Plane (SMP) of the Unicode Standard
 - WebAdmin: restore local file name in logs
 - Verifying https links in the catalogue
- Scoring complete
 - LAN sorting reclassified as bug and will not require voting
 - Enhancement to address Unicode issues exceeds complexity of NERS-eligible development

The Year Ahead

- The VPWG Operates on an annual calendar that resets at ELUNA
- As long as Voyager is alive, the VPWG has work to do...
- Continue and complete a review of listserv history for information that should be saved
- Complete the 10.5 enhancement cycle and provide guidance on development
- Collect useful information for Voyager libraries planning to migrate
- And more!

Call for members!
