Alma Integration with Web of Science: JCR and InCites

Erez Shabo
Alma Product Team

*With a multilayered approach that incorporates reference counts, alongside traditional collection development metrics, outliers from any single data source can be easily identified and investigated, and **a clearer picture of local usage, impact, and demand begins to emerge.***

Pastva, Joelen, Jonathan Shank, Karen E. Gutzman, Madhuri Kaul, and Ramune K. Kubilius. 2018. "Capturing and Analyzing Publication, Citation, and Usage Data for Contextual Collection Development". *The Serials Librarian* 74 (1-4): 102-10.
<https://doi.org/10.1080/0361526x.2018.1427996>

How is Usage Measured?

Enriching data-driven collection development approaches with new evidence

Circulation

In-house usage

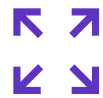

Cost-per-use

Publication data

ILL requests

Growth in size

E-resource usage

Citation data

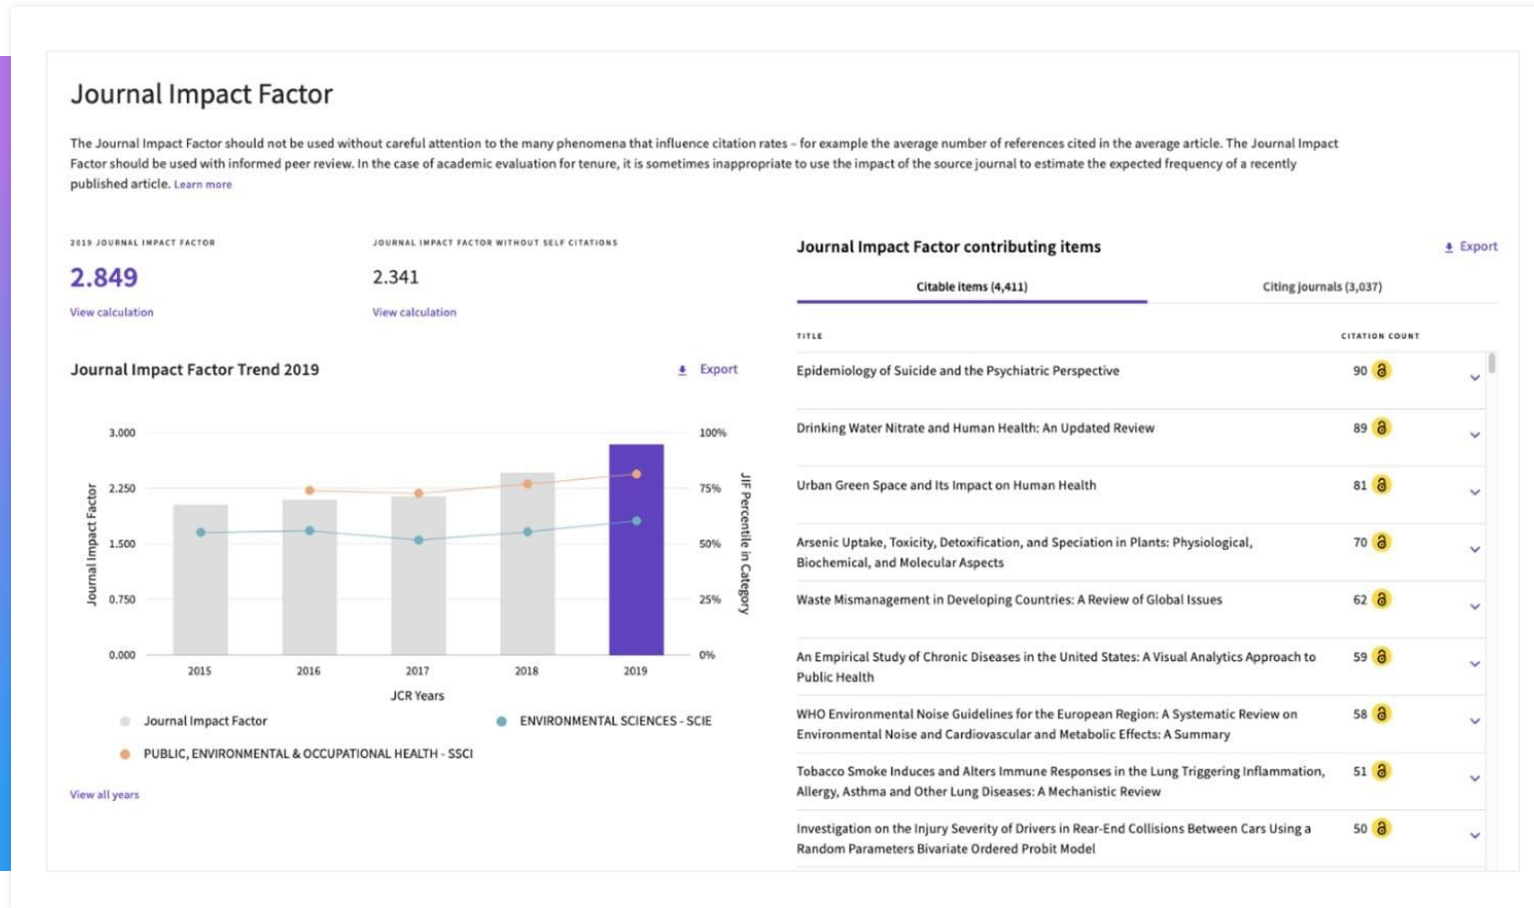

Alma Integrates with Journal Citation Reports

Journal Citation Reports (JCR) from Web of Science

Assess the world's leading journals with publisher-neutral data

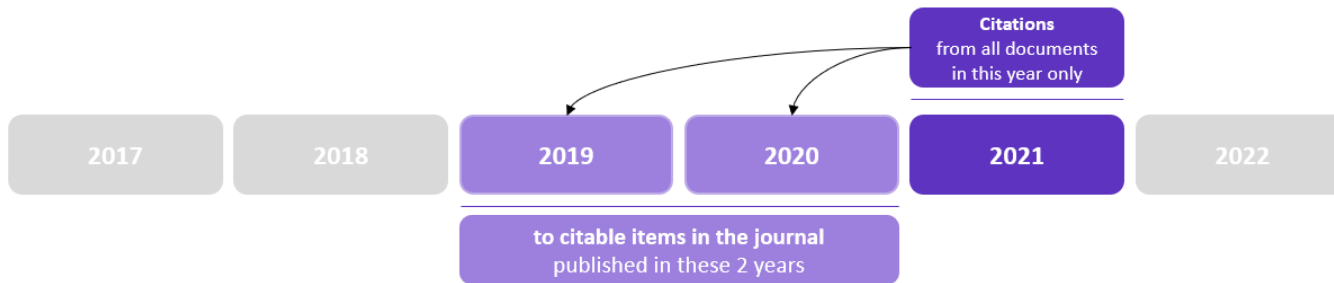

“Journal Citation Reports™ (JCR) provides you with the transparent, high-quality data and statistics you need to make confident decisions in today's evolving scholarly publishing landscape”

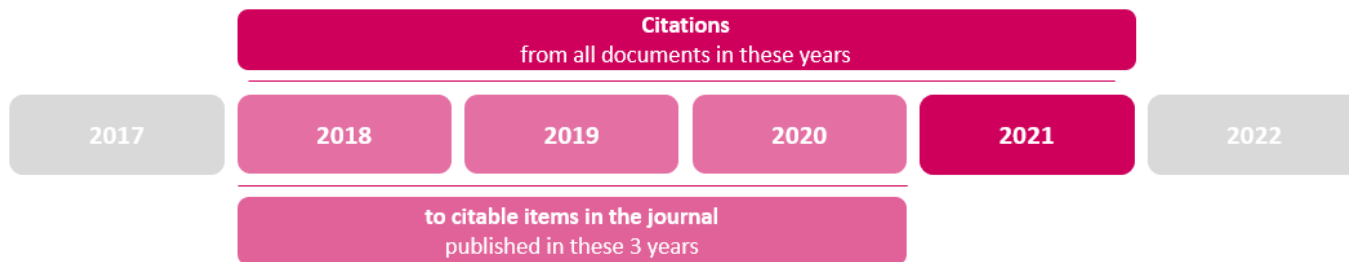

Journal Citation Reports (JCR)

Ensure your library collections support rigorous research and teaching

Journal Impact Factor (JIF)

Journal Citation Indicator (JCI)

Understand a journal's role and influence within the global research community by exploring a rich array of citation metrics

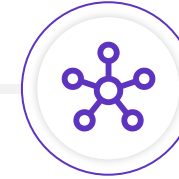

Alma and Journal Citation Reports Integration

Embed journal intelligence directly in your Alma workflows

The new Journal Citation Reports Cloud App will display Journal Citation Indicator (JCI) for a set of titles within the Alma interface

The app also provides a link to multidimensional profiles in Journal Citation Reports

Display of the JCR Metrics in Alma

The screenshot displays the Alma interface for a search of 'biochemistry'. The main content area shows a list of three journal records, each with its title, description, and JCR metrics. The right-hand panel provides a detailed view of the JCR metrics for the selected records.

Facets: Language (Croatian (2), English (271), French (8), + More (8)), Publication Year (1905 - 1978 (62), 1979 - 1992 (62), 1993 - 2006 (64), + More (2)).

Search Results: All Titles (1 - 20 of 277) | biochemistry. Sort by: Title - Asc. Secondary Sort by: Rank. 0 rows selected.

Journal 1: ACS bio & med chem Au.
 Journal (Journal - Electronic) text; computer; online resource By American Chemical Society, (Columbus, OH : American Chemical Society, [2021-])

Alma Integrates with InCites Benchmarking & Analytics

InCites Benchmarking & Analytics by Clarivate

Normalized citation impact of co-authored papers for top collaborators

Helping organizations optimize their position in the research landscape

- Benchmark research to peers
- Assess collaborations
- Enhance collection development reporting
- Inform decisions with an unbiased, meticulously indexed data foundation

Integrating Resources to Support Librarian Workflows

ExLibris
Alma

Clarivate
InCites™

See collection needs and usage across your organization

Monitor the evolution of collections according to research area, open access and publishers

Complement traditional measures of usage with bibliometric data

What Can InCites Reports Reveal?

New subscription recommendations

Identify journals outside of your current collection that have high publication or citation activity associated with your researchers and investigate whether they should be part of your collection

Specialized needs by department

Filter reports by 250+ research areas to assess local needs as well as finding areas of high cross-disciplinary activity

Validation of title requests

Supplement ILL request data with cited reference counts, which in some cases outnumber loan requests and can serve as a "more reliable indicator of campus demand"*

[*Capturing and Analyzing Publication, Citation, and Usage Data for Contextual Collection Development](#)

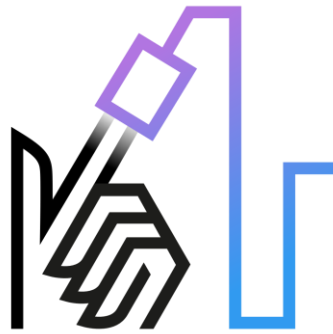

Live Demo

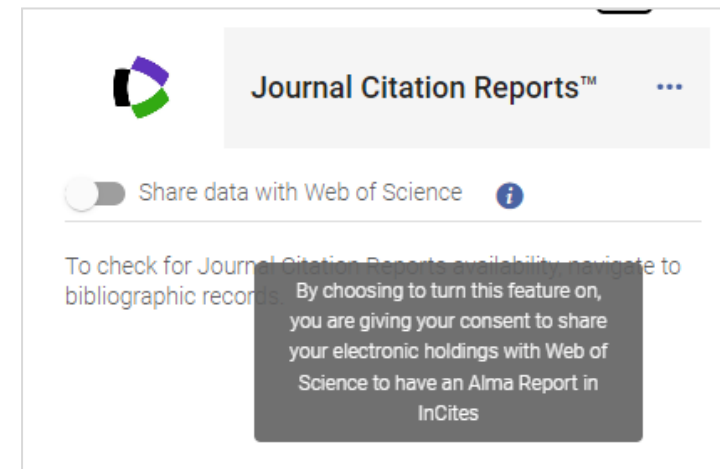

Get Enhanced Collection Development Reporting

Mutual customers can opt-in via Alma to share their holdings information with InCites and gain access to new, custom, pre-configured collection development report

Step 1: Activate the JCR cloud app from the Alma Cloud App Center

Step 2: Toggle on the 'Share data with Web of Science' option in the JCR cloud app

How to Access InCites

Sign in or register as a new user to take full advantage of all personalization features, such as sharing reports and managing your dashboard

The screenshot shows the InCites login and registration interface. At the top, there is a black navigation bar with the Clarivate logo on the left and a language dropdown menu set to 'English' on the right. Below this, the 'InCites' logo is displayed. The main content area features a white sign-in box with a purple header that reads 'Sign in to continue with InCites'. Inside the box, there are two input fields: 'Email address' and 'Password'. Below the password field is a 'Forgot Password?' link and a purple 'Sign in' button. To the right of the sign-in fields, separated by a vertical line and the word 'OR', is the registration section. It starts with the heading 'Don't have a Clarivate Account?' followed by the text 'Register your email to gain access to all that InCites has to offer:'. Below this is a bulleted list of benefits: 'Access from outside of your organization', 'Save reports and settings', 'Create and export custom datasets', and 'Automatically Sign-in'. A purple 'Register' button is positioned below the list. At the bottom of the sign-in box, there is a disclaimer: 'By signing in, you acknowledge and agree to our Terms of Use and Privacy Statement.' and a support link: 'Need help? Contact wosg.support@clarivate.com.'

How to Access Alma Collection Report

The screenshot shows the Clarivate InCites interface for an ALMA Collection Report. The top navigation bar includes 'InCites', 'Analyze', 'Report' (highlighted with a red box), 'Organize', and 'My Organization'. The user's email 'laia.bonastre@clarivate.com' is visible in the top right. Below the navigation, the breadcrumb 'ALMA Collection Report' is highlighted with a red box. The main heading is 'Autonomous University of Madrid collection report', with 'Save as...' and 'Download PDF' buttons to the right. A subtitle reads 'Get insights of your publications' collection for a better subscription assessment'. The dataset is identified as 'InCites Dataset'. The main content area features several filter sections: 'Collection data range' (2018 - 2022), 'Source type' (All), 'Publisher' (e.g. Springer Nature), and 'Web of Science categories' (e.g. Medicine, Research & Experimental). Below these are several category tags like 'MEDICINE, GENERAL & INTERNAL', 'MEDICAL INFORMATICS', 'CLINICAL NEUROLOGY', and 'ELSEVIER FRANCE-EDITIONS SCIENTIFIQUES MEDICALES'. A 'Collection Overview' tab is active, showing '13,000 Subscribed publications' and a search bar for 'Find in table' with the example 'e.g. Journal of Clinical Investigation'.

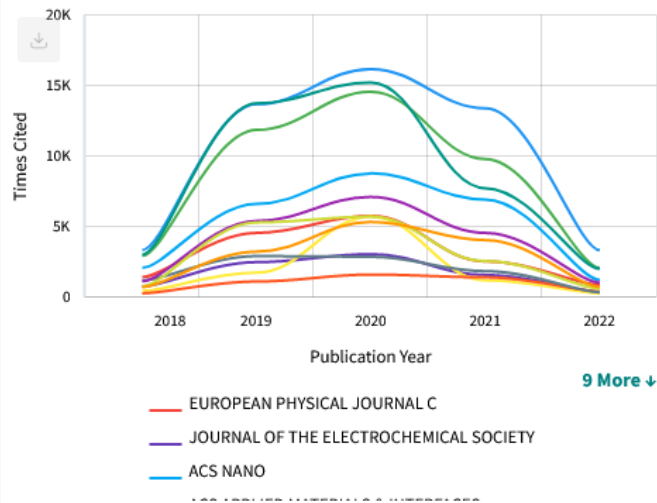

Select your Alma Collection Report and start filtering, refining, and getting insight from the data

Explore Publication and Citation Trends in the Context of Your Holdings

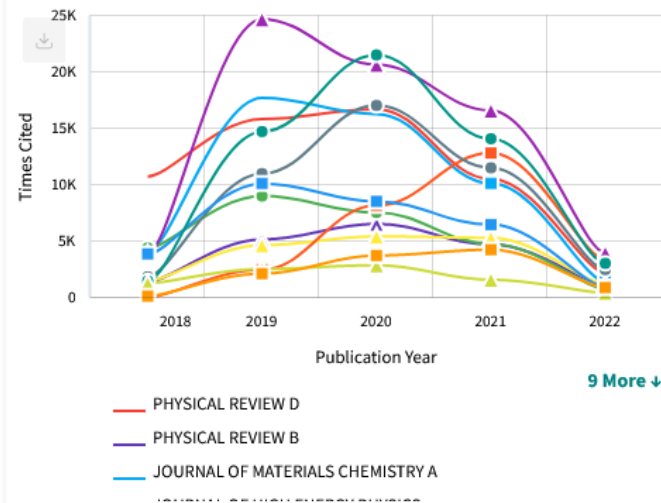

Publications in your collection citing your authors the most

Publications are ranked by the number of citations to researchers in your organization during the last 5 years

Publications not in your collection citing your authors the most

Publications are ranked by the number of citations to researchers in your organization during the last 5 years

Gain unique insight into how faculty interacts with publications within and outside of your collection based on published papers, citation activity, and other indicators

Create Easily Reproducible Citation Analyses
