Introduction

Introduction

- It is possible to add copyright watermarks for image files.
- The watermarks can appear in a specific position on the image or repeated across the image.
- The watermarks are part of the overall copyright statement and allow the institution to ensure the proper use of the images.

The three steps for defining copyright watermarks

The three steps for defining copyright watermarks

- The flow for defining and using copyright watermarks for image files is as follows:
 1. Create a digital watermark
 2. Attribute the watermark to a "Copyrights Statements - Digital"
 3. Attribute the "Copyrights Statements - Digital" to a digital representation

Let's set it up

Let's set it up

- We will define this image to be our watermark, and we will call it “Creative Commons” (from <https://mirrors.creativecommons.org/presskit/buttons/88x31/png/by.png>)

Let's set it up

- Access the Digital Watermark configuration at “Configuration > Fulfillment > Copyright Management > Digital Watermark”

A screenshot of a dark grey navigation menu. The menu items are listed in white text. The item 'Digital Watermark' is highlighted with a red rectangular border. The items are: Copyright Management, Digitization and Copyright Rules, Access Rights, Copyright Declaration, Copyrights Statements - Digital, Digital Watermark, Resource Sharing, Copyright Declaration, Copyright Publishers, Citation Default Copyright Status, Leganto Copyright Settings, Copyright approval reasons, and Copyright reject reasons.
