35,000 Collections in each KB

15M Bibliographic records in Alma CZ

54M Portfolios

Alma's E-Resource Knowledge Base and so much more!

Discovery Service Options

Continue with Existing Discovery	Separate Discovery for E & P	Discovery Replacement
You can continue to use your existing discovery service (legacy OPAC , Summon, Primo, VuFind…):	**If you prefer users access different formats via two channels:**	**If you want to replace the current discovery service:**
• Electronic resources managed can be shared to existing library discovery through publishing a process • Existing discovery service points to the Alma Link Resolver via OpenURL	• Use PrimoVE for the discovery of e-resources at the title, article, and chapter levels • Use your existing library catalog for print resources	• Use PrimoVE for the discovery of all electronic AND print resources
