

## Expania Report to Inug meeting (Taipei, 2026)

The Expania ExLibris User Group was created in 2005.

Members in 2026: 48 Institutions Website of Expania: <http://www.expania.es>

The Board Committee is as follows:

Chair: Marina Losada (UPF)

Deputy Chair: Amparo Llorente (CSIC)

Treasurer: Gerardo Ruíz (UGR)

Secretary: Isabel Domecq (UPM)

Member-at-Large: Andrés Lloret (UPV)

### Main Activity in 2026

Just like last year, the association has promoted system managers training. A total of five sessions were held, with more than 150 colleagues participating. We also had 3 Clarivate seminars for all the members, also with great participation. These seminars aim to improve shared knowledge and foster collaboration between members.

Also, the XXIII Annual Conference was held on June 11-12 in Granada. It was a highly enriching event, featuring ten compelling presentations, and session with ExLibris-Clarivate representatives. Additionally, we hosted two hands-on workshops. This was an in-person conference aimed at promoting relationships among members.

Since the IGeLU conference is being held in Taiwan this year and many of our institutions lacked the capacity to send representatives, Expania launched a scholarship to attend the conference for one member.

During 2025, some of our members migrated to Primo NDE and they are finding that certain previously functional features no longer work, they will be able to discuss this matter during the meeting with Clarivate representatives at the IGeLU Conference. They will also take the opportunity to address topics related to the management and display of authority data in Primo.

### Conclusion

This updated report reflects the activities and challenges faced by Expania in 2026, emphasizing the areas that need improvement.
