A library network

- Since 1977
- Goals
 - Optimization of services
 - Offer new advanced applications to enhance services
 - Improve quality of information
- Different types of libraries
- 33 institutions - 85 libraries.
- ca 6 000 000 records
- ca 6 700 000 items
- Collaboration!!

LIBISnet

LIBIS
INTO INFO

Our approach

- Not a technology project...
- But an organisational project
 - **Change** Electronic resources now dominant
 - **Change** just in case → just in time
 - **Change** Patron driven acquisition
 - **Change** Ownership → Access
 - **Change** Metadata almost always already exist → use it !
- Use the implementation of Alma as a tool to implement *change awareness*
- Take away worries
 - IT-people, cataloguers...

LIBIS

Our approach

JUMP!!!

LIBIS
INTO INFO

Training

- General introduction (1/2 day)
- 1 day hands-on per module: resource management, fulfillment, acquisition, electronic resources, resource sharing
- 1133 participants in 32 sessions (370 unique)
- Come-back sessions
- Workshops

LIBIS
INTO INFO

	Cluster 1	Cluster 2
Data extract from Aleph + freeze cata, acq ans serials	29/06	13/07
Data loaded	11/07	29/07
Freeze online circulation > offline circulation	11/07	1/08
STP with Alma	15/07	5/08
STP with new Primo	5/08	5/08

 **LIBIS**
INFO 2012

3 main concerns

- Open issues functionality
 - Based on our showstopper list
- Performance
 - Primo
 - Resource management
 - E-resources
- STP + 6 list
 - Do we get sufficient guarantees
